| [Cord Blood 101](#)

*Save on first year fees - Save \$200 when banking cord blood only or \$400 when banking both cord blood and cord tissue. Additional storage fees will be charged annually, beginning on your child's first birthday. One redemption per household. This offer cannot be combined with other offers, discounts or promotions. Enrollment cancellations are subject to a \$150 fee; full processing or preparation fees are charged if cancellation is requested after the newborn stem cell unit(s) have been stored.

Ultimate use of newborn stem cells will be determined by the treating physician who will consider if they are applicable for the condition and should come from the patient or a suitable donor (siblings of the same biological parents have a 25% chance of being a perfect match and a 50% chance of being a partial match; biological parents will always be a partial match). There is no guarantee that treatments being studied in the laboratory, clinical trials, or other experimental treatments (including regenerative medicine applications) will be available in the future.

1200 Bayhill Drive, San Bruno, CA 94066.
